NBG Mission

To provide clients access to comprehensive integrated solutions from the best resources in the industry

NBG Culture

Nations Business Group (NBG) is to leverage manufacturers and 8(a) small businesses to enable clients to achieve their SDB goals via easy access to solutions essential to their success.

NBG Competitive Advantage

NBG has its unique status as a Partner of many Small Disadvantaged Businesses that, due to their designation, are able to obtain set-aside work from clients. These SDB Companies have been vetted by a team of experienced business professionals with backgrounds proven in delivering excellent solutions. They have the prerequisite contracting vehicles and direct award ability that Federal Contracting Officers desire and that Commercial Purchasing Officers like to see in their SDB Partners.

NBG has strong distributor relationships with many of the major companies that provide safety and security products to Federal Government & Commercial market places.

Areas of Emphasis

▪ **Safety Products & Solutions**

- Lock-out/Tag-out Protections Systems
- Compliance Centers/Training/Signage
- Padlock/Personnel Identifications System

NBG Strength and Capability

NBG has the backing and support of disadvantaged companies with a proven history of assisting the Federal Government and Fortune 500 Companies in successfully meeting their mandated Small and Disadvantaged Business Goals and Objectives while also streamlining their acquisition process by working with Certified Small Business Administration 8(a) entities, as well as Minority Diversified Supplier recognized organizations, saving both time and money.

NBG has relationships with many of these businesses that can supply solutions to their clients integrating products and services from well-known and recognized market suppliers. These relationships have resulted in organizations successfully delivering \$200M per year in solutions, resulting in many satisfied customers.

Areas of Emphasis

▪ **Security Products & Solutions**

- If it opens & closes or moves, we secure it
- Low/High-Tech, All-Weather Capabilities
- Multi-Tier Keying Solutions/Registration
- Extreme Conditions/Corrosive Problems
- Security Assessments/Design Solutions
